Subject: I support the Lent MarketPlace project

I fully support the Lent Market Place project for the following reasons:

It will be excellent for the economic growth of Elk Grove.
It will supply jobs for the area.
The Taxes generated will help defray the expenses of the City of Elk Grove.

The Grantline overpass will have to be enlarged, which I think is a good thing.

I disagree with the folks who think that the Propane tanks are too close to the Lent property. Propane is not as volatile as gasoline or dynamite. The propane must mix with a certain amount of oxygen and then be ignited, unlike gasoline which will ignite and explode upon contact with fire. I live approximately 1 mile from the Lent Property and the Propane tanks are not a concern to me. I'm more concerned about cars or trucks veering off the freeway and into our housing development.

Anyway, my bottom line is I support the Lent Market Place.

Sincerely,

Martha Sodeman
