

## WORKSHOP MEETING RULES

- R:** Raise your hand when you have something to say and please wait to be recognized by staff
  
- E:** Everyone will have the opportunity to share their thoughts
  
- S:** Staff is here to facilitate community desires for road design, not to dictate design solutions
  
- P:** Participation is critical to achieve an outcome that reflects majority opinion - please allow all voices to be heard
  
- E:** Efficiency in similar comments is encouraged – support for previous comments, rather than repetition will keep our workshops on time
  
- C:** Courtesy to others is critical for a collaborative process – please recognize that not everyone will agree on design solutions
  
- T:** Take turns speaking - do not interrupt others or carry on separate conversations during the workshop
